Summary

Recent Computer Science graduate with training in Java Full Stack Development from JSpiders, looking for an opportunity to start my career as a Software Engineer. I'm passionate about technology and excited to contribute and grow in a dynamic team.

Skills

Programming & Querying: Core Java, Java 8, Advanced Java, SQL, Python(basic)
Web Technologies: HTML5, CSS3, JavaScript, REST API, Servlets, JSP
Frameworks: Spring, Spring Boot, Microservices, Bootstrap
Developer Tools: Eclipse, VS Code, Maven, Postman
Core Concepts: Data Structures and Algorithms ,Object-Oriented Programming

Education

B.E. Computer Science and Engineering   **Graduated: 2025**
Excel Engineering College, Komarapalayam,Tamil Nadu

Projects

Hotel Management System: | *Core java, JDBC, MySQL*   **Jan 2025 – Feb 2025**
  – **Developed a Hotel Management System** using Java, JDBC, and MySQL for guest record management.
  – Implemented CRUD operations for adding, fetching, updating, and deleting guest details.
  – Optimized database interactions for better performance and scalability.

Weather Forecasting : | *JavaScript , HTML , CSS , API*   **April 2025 – June 2025**
  – Developed a dynamic weather forecasting application using HTML, CSS, and JavaScript.
  – Leveraged API integration to fetch and display real-time weather data, including temperature, humidity, and weather conditions, for user-specified locations.
  – Designed a responsive and intuitive user interface for an optimal user experience across various devices

Internship/Training

Java Developer Training from 'capgemini'   **March 2024 – January 2025**
Java Developer   *core java, Spring boot, Rest API, SQL*
  – Built a Placement Management System to streamline student–recruiter interactions.
  – Developed backend modules using Java, JDBC, Servlets, and REST APIs for secure data handling.
  – Designed and integrated REST API endpoints and database operations with MySQL.
  – Collaborated with the team in testing, debugging, and enhancing features to improve system reliability.

Java FullStack Training from 'Jspider'   **January 2025 – present**
Java FullStack Developer   *Spring boot, Rest API, SQL,Github ,Microservices*
  – Worked on projects including a To-Do List application, focusing on backend and frontend development Implemented features to add, edit, delete, and mark tasks as completed.
  – Implemented error handling and dynamic updates for accurate and smooth functionality.

Certifications

- **Java FullStack Certification – Capgemini**
- **Java Certification - Udemy**
- **Computer Science Basic - Mindluster**

Language

- **English**
- **Hindi**
